### Phone Apps:

If a physical OPS isn't available or of interest digital ones exist in the form of the Lifeguard and The Brave App downloadable through all app stores.

### LIFE GUARD

The app is activated by the user before they take their dose. After 50 seconds the app will sound an alarm. If the user doesn't indicate that they are fine, the alarm grows louder. After 75 seconds, the app will alert emergency responders.

### THE BRAVE APP

The user can utilize the app to connect with remote peer support through a voice call. If the user is deemed unresponsive during the call, your supporter will employ your custom response plan to call for help.
